

# Rust-Shock

## Technical Datasheet

Create Date: 12.01.2016 - Page 1/1

"the chemical wrench"

WEICON Rust Shock is free of mineral oil, grease and silicone.

Rust Shock is a "chemical screwdriver" and uses its chill effect and capillary properties to loosen threaded joints in seconds.

WEICON Rust Shock can be used in all industrial sectors requiring threaded joints to be loosened.

### Technical data

Colour	blue
Odour	solvent
Temperature resistance	--- °C
Shelf life (minimum)	12 months
Special features	Removes rusted-tight screw connections of any type in seconds

### Pretreatment of the surface

Shake can before use. Spray Rust Shock at about 15 cm distance onto the part to be treated and let it work for 10 - 20 seconds. Then unscrew the connection. With extremely rusted parts, repeat the process.

### Processing

Shake can before use. Spray Rust Shock at about 15 cm distance onto the part to be treated and let it work for 10 - 20 seconds. Then unscrew the connection. With extremely rusted parts, repeat the process.

### Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

### Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the

product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

### Health and Safety

When using WEICON products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets ([www.weicon.com](http://www.weicon.com)) must be observed.
