

Starter Spray

for all combustion engines

WEICON Starter Spray is suitable for the easy and safe starting of combustion engines. The safe cold starting of all engines is made possible by a special combination of ingredients.

Starter Spray is ideal at low temperatures, in damp weather or after longer engine downtimes. The spray protects both the engine and the battery.

Technical data

Colour	colourless
Odour	solvent
Temperature resistance	n/a °C
Shelf life (minimum)	24 months

Processing

Shake can before use. Spray WEICON Starter Spray directly into the air inlet or onto the air filter, wait briefly and start engine slowly. The use of a choke or preheating of diesel engines is not required. Repeat process if necessary.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50 °C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

Health and Safety

When using WEICON products, the physical, safety technical, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.
